"Tommy" is believed to be a member of a band long under observation by Shavlin's men; most of its members are of foreign birth, and they have not hesitated to threaten sudden death to any of their number or customer who "double-crossed" them.

An absolute retraction of charges against the veracity of William H. Pendleton, Edward's racing partner, which were given out in typewritten form by District Attorney Swann on Wednesday last, was made to-day by the District Attorney. The charges were that Pendleton had made statements regarding his whereabouts and that of his wife automobile on the early morning of June 11 which were shown to be untrue by the statements of garage men and taxi drivers involved, and that these statements involved recollections of Pendleton with Mr. and Mrs. O. W. Bird and George B. Post Jr. Pendleton asserted that he was a mis-quoting of dates and the movements of himself and his car as described by the Swann statement happened June 1. Mr. and Mrs. Bird and Post all agreed with the statement of the taxi driver who said that he saw Pendleton's automobile on the morning of June 11 and that he had not seen it in the club June 11.

The District Attorney put emphasis on a previous statement that he did not believe Pendleton was in any way implicated in the death of Edward and that his only motive for checking up on Pendleton's statement was to possess himself of every item of information regarding the movements of the latter on the night of June 11-12.

Assistant District Attorney John T. Dealing to-day announced that he had questioned the sister of Mrs. Bird and that the young woman, whose name Mr. Dealing refused to mention, had corroborated the story told by Mr. and Mrs. Bird and by Mr. Post about the visit of Pendleton to the home of the Birds.

Ginsburg told Assistant District Attorney Schwartz that he bought the automobile from Stephens. Stephens showed a bill of sale signed by a man named Olson, who admitted to police that he meant to use the dice found in the stolen machine to make the engine number tally with that in the bill of sale.

The stolen machine belongs to Eugene Schwartz of East Orange. It was taken from a garage there.

BOLTERS ARE OUT IN BIG FORCE TO FORM THIRD PARTY

Hearst and Brisbane at Chicago to Take a Hand in Organization.

LA FOLLETTE SILENT.

Urged to Take Nomination for the Presidency—At Odds Over Platform.

CHICAGO, July 9.—William Randolph Hearst and Arthur Brisbane are here to aid in the organization of a third party at the conference of party wreckers, which begin to-morrow. Hearst wants to have an old-time Democratic nominated for President, but leaders of the Committee of Party-eight favor Senator La Follette as their standard bearer.

Senator La Follette has not definitely decided whether he will accept the nomination. Amos Pinchot and George L. Record went to his home in Madison, Wis., to induce him to run. They returned to-day without any definite information that they were willing to make public.

"Mr. Record and I spent a couple of hours with Senator La Follette," said Mr. Pinchot. "and went over the whole political situation. We asked that a campaign be waged on a brief, clear platform calling for Government ownership of railroads and of the principal natural resources and that no land should be held for the use of or to aid monopoly. This conference will be resumed Friday."

Henry Ford is being boosted by his friends and it is authoritatively stated that he will accept the nomination if it is tendered to him.

The widespread ramifications of the proposed third party are plainly seen in the representatives of labor organizations, radical farm associations, single tax leagues, World War veterans and of the Non-Partisan League, which has considerable strength in the Northwest.

The Single Taxers demand that the nominee favor their hobby and are opposed to La Follette, who they say is paternalistic and even Socialist in his views.

The difficulties of harmonizing the opposing tendencies is further complicated by the injection of the Irish Republican question. A questionnaire sent to 2100 members of the Committee of Party-eight resulted in an overwhelming sentiment against the recognition of the republic by the third party. Sympathizers let it be known that a plank would be introduced from the floor demanding recognition, and, it was intimated, if it was not accepted the Irish friends would walk out of the convention and start a party of their own.

Republican and Democratic politicians are watching the movement very closely. The Democrats are hoping La Follette will be nominated, believing he could draw largely from the Republican vote in Wisconsin, Minnesota and the Dakotas, where the Non-Partisan League has grown powerful.

J. A. H. Hopkins of New Jersey, National Chairman and at one time National Treasurer of the Progressive Party, was actively engaged to-day in arranging preliminaries for the convention. Prof. Stanley Rybins of the University of Minnesota was assisting him.

Charles H. Ingersoll of New York, McCallister Coleman of New York, J. H. McGill of Valparaiso, Ind., Charles Hoffman of Florida and Frank Stephens of Maryland were some of the members of the National Committee who had arrived.

John Haynes Holmes, Dudley Field Malone and William Marion Reedy are expected here.

SENATORS TOLD MONEY AS USED IN FIGHTING REED

Delegates to Missouri State Convention Testify About Receiving \$150 Checks.

ST. LOUIS, July 9.—Checks signed by Edward F. Goitra, Democratic National Committeeman from Missouri, were given to delegates to pay their expenses to the Democratic State Convention at Joplin, according to testimony given today by members of the St. Louis Democratic Committee before the Senate committee investigating Presidential campaign expenditures.

This convention was instrumental in ousting United States Senator James A. Reed from a seat in the National Convention. Senator Reed, a member of the Senate committee, which resumed hearings here to-day, took no part in to-day's session other than to be present in order to complete a quorum.

Patrick O'Neill, member of the Democratic Committee, and a delegate to the Joplin Convention, told the committee he was given a check for \$150 signed by Goitra, to pay expenses to the convention.

Lawrence P. Daly, Chairman of the City Committee, gave him the check, he said. When O'Neill declared he was against Goitra, Senator Spencer asked if it "wasn't unusual to accept Goitra's check then?"

"No," answered O'Neill. "I thought the money was subscribed. Why shouldn't the Democratic Party pay my expenses?"

Harry Streuter, another City Committeeman, said his check for \$150 was given him at Committee Headquarters. He asserted the money did not go to expenses, but that Goitra had hoped they would get most of the delegates who traveled on his money for Reed. Streuter declared.

Streuter said he presumed every delegate from the Tenth District got \$150. He denied he had any intention of helping Goitra.

Tony Stuever, another delegate to the State Convention, also gave him \$150, Streuter said. Stuever was a friend of Senator Reed and favored Cox for President, he added.

"In other words, you got \$150 from the Goitra faction and \$100 from the Stuever faction when you knew these factions were antagonistic," asked Senator Kenyon.

"Well, I thought the money had been subscribed and was to help the Democrats," Streuter replied. "Goitra made it claim the money was for expenses and told the delegates he was sorry he couldn't get more."

VAN INQUIRY BEFORE NEW LAW IS DRAWN

Committee to Determine Fair Rates for Owners and Square Deal for the Public.

The Public Thoroughfares Committee of the Board of Aldermen decided to-day to make a special investigation of the moving van situation and recommend that an ordinance establishing fair rates to both van owners and persons who must move be submitted at a special meeting called before the moving season begins.

Moving van owners will be requested to submit a schedule of moving charges which will allow them a fair margin of profit. Chauffeurs, drivers and other employees will submit a statement of what it will cost an employer for their hire. The ordinance will be based on these figures and a square deal for the public.

It was generally agreed by those who participated in the conference that a special committee be appointed to present a moving van ordinance cause profiting. This clause will be eliminated when the new ordinance is prepared.

Mr. Brainard issued a statement, in which he said, a certain group of newspapers was interested in having the case pushed to the limit for reasons of its own.

LOVE BURGLAR, HE SAYS.

Man Caught on Parach Roof Asserts He Was Playing Ransom.

Asserting that he was a love burglar and no mere thief of goods and chattels, John Burke, twenty-four, of No. 116 West 11th Street, Manhattan, was dragged by policemen from the roof of the porch of Harry D. Barr of No. 153 East 15th Street, Brooklyn, before dawn to-day. The police said they took from him an electric pocket lamp and a long bladed knife.

Burke said he was the victim of an overpowering passion for a maid in the Barr home and was trying to get into her window after she had refused to see him at the front door. Mrs. Barr told the policemen the only maid employed in the household was over sixty years old and of unromantic temperament.

Burke was taken to the Chief Magistrate's Court at No. 44 Court Street.

HARDING ASSURED OF SUPPORT FROM OLD BULL MOOSE

Former Roosevelt Leaders Unanimous for Him at Meeting Held Here.

MARION, O., July 9.—Chairman Hays and Gen. T. Coleman du Pont are expected here to-morrow to be over-Sunday guests of Senator Harding. Arrangements for the formal notification of the Presidential nominee will then be made, and it is likely the candidate will be told that many of the leaders believe his front porch campaign plan should be abandoned.

Assurance of the support of former Roosevelt leaders has been conveyed to Senator Harding by Walter Brown, Chairman of the Ohio State Progressive Committee in 1912 and now a member of the Republican State Advisory Committee and aspirant for Harding's seat in the United States Senate.

He based his assurances on the unanimous declaration for the G. O. P. ticket by a meeting of former Roosevelt supporters which he attended at the Harvard Club in New York City Thursday of last week.

While Senator Harding has declared himself for a campaign of parties, the Republicans of Ohio, it is indicated, will not avoid personalities in the contest, nor will they miss any opportunity to utilize attacks on the Cox candidacy by William Jennings Bryan.

GERMANS PROTEST AGAINST THREAT OF RUHR OCCUPATION

Disarmament Begins at Once—Cannon to Be Given—Civilians Must Surrender Arms.

SPA, Belgium, July 9. (United Press)—The German delegation to-day argued to meet the terms of the Allied ultimatum but refused to agree to the proposition that Allied forces occupy German territory on the Ruhr River.

The Germans agreed to the first four terms set down in the Allied ultimatum as follows:

1. Disarmament of all German forces, including the Security Police, must begin immediately.

2. Germany must publish a proclamation ordering immediate surrender of all arms held by German civilians.

3. All arms, ammunition, guns and cannon in excess of the treaty terms must be handed over to the Allies without delay.

4. Germany must abolish compulsory military service.

The fifth proposal was that unless the German army was reduced to 150,000 by Oct. 1 next the Allies would occupy the Ruhr district or other German territory, which would be held until such time as all conditions of the ultimatum were fulfilled. While the Germans agreed to reduce the military forces within the allotted time, they declared the Allies had no right to threaten occupation of the Ruhr, holding this was not in accordance with the peace treaty.

He then took the oars and rowed away, intending to get to another yard where the work could be done. That is the last trace his family or friends have of him.

"We are afraid that the heavy squalls that accompanied the storm upset the boat," said Col. Whittey, "and we are working on that theory. The engine was placed in the launch, well forward of midships, and tilted the boat in that condition, and the weight of the engine would have dragged the boat under."
